

# Care of the Critically ill Medical Patient (CCrIMP)

Monday 27<sup>th</sup> and Tuesday 28<sup>th</sup> November 2017  
0800-1630 (both days)

*Refreshments and Lunch Provided!*

Prince William Education Centre  
Kettering General Hospital  
Rothwell Road  
Kettering  
NN 16 8UZ  
01536491751

This two day course is a blend of lectures, workshops and patient scenarios for F2 Doctors and is part of the Choices Programme. There will be a link to the VLE-online part of the course made available beforehand to allow delegates to familiarise themselves with the content of the course.

The course will enable participants to:-

- ❖ Recognise, assess and initiate management of acutely ill patients;
- ❖ Identify and respond to acutely abnormal physiology;
- ❖ Formulate a differential diagnosis and refer as appropriate;
- ❖ Learn to select relevant investigations and accurately interpret reports and/or results;
- ❖ Identify the effects of chronic disease or co-morbidity on the presentation and management of acute illness;
- ❖ Know when to deliver a fluid challenge safely;
- ❖ Describe the conduct of and be aware of the indications and contraindications of the certain practical procedures (Aspiration of Pleural Fluid or Air; Lumbar Puncture and Insertion of central venous pressure line).
