<b>Lunchtime</b>	AMU meeting	FY1 mandatory teaching	Endocrinology team Educational meeting	Diabetes team Educational meeting	Grand round - LRI
<b>PM</b>	Ward based duties	Ward based duties	Ward based duties	Ward based duties	Ward based duties
<b>Educational Activities:</b>					
<p>Within Diabetes and Endocrinology there are many educational activities that an FY1 could attend in addition to those in time table. Attendance would sometimes depend on ward staffing however we encourage the juniors to plan in advance a rota of who can attend sessions. This way the opportunities can be distributed evenly. Examples of educational activities: observing in MDT foot clinic, observing in a complex diabetes or endo clinic, specialist radiology meetings (adrenal MDT, pituitary MDT). All junior doctors are encouraged and supported in presenting case histories at meetings.</p>					
<b>Other Comments (if appropriate):</b>					
<p>Management of diabetes in inpatients is an area which junior doctors report lack of confidence and competence. This post gives an individual the opportunity to develop clinical skills in this area which are transferable where ever they work during their career.</p>
