Other Comments (if appropriate):					
<p>The foundation trainee will learn generic skills in history taking, physical examination and obtaining a collateral history. They will be involved in organising appropriate investigations, and referring on to other specialists. They will learn how to manage difficult consultations and communication skills. Regular teaching sessions are held which are bleep free and trainees encouraged to attend them.</p> <p>The pay for this post will be on the Nodal Point for Foundation Year 2 doctors. This post does have duties/shifts outside of core hours and the trainee will receive pay enhancements for additional hours, night hours and weekends worked as detailed in the Terms and Conditions of Service for Doctors in Training 2016. The on-call shifts start and end with a full 30 minute handover between the day and night teams. We have recently introduced a Hospital @ Night team to support the on call team out of hours. In addition, there is a dedicated on call cardiology service and Kettering is the Primary PCI centre for the county. We also have a dedicated GI bleed rota delivered by our consultant gastroenterologists out of hours.</p>
