<b>Site:</b>		<b>Trust:</b>			
King's Mill Hospital		Sherwood Forest Hospitals NHS Foundation Trust			
<b>Main duties:</b>					
<p>There is a daily consultant ward round which you are expected to attend. The afternoons are then spent completing the ward jobs and assisting with the inpatients. There are plenty of opportunities to gain experience in ascitic taps and paracentesis drains. It would be very unusual for you to leave this placement without being fully competent in both. There is a good mix of young and old patients on the ward with a mix of gastrointestinal conditions. You should gain good experience of GI bleeds, acute inflammatory bowel diseases and liver diseases (in particular decompensated liver disease). As some of the patients can be very unwell you will get good experience managing acutely unwell patients with supervision. The job is a busy one but you are well supported. There will potentially be opportunities to follow patients to endoscopy or imaging and there may be the opportunity to attend clinic. We expect your participation in ward governance meetings and with the Morbidity and mortality meeting. There are lots of opportunities to be involved in audit in the department and on the ward.</p>
